Sir/Madam

I am writing to apply for the Front-End Developer position in your organization. As a recent graduate with a Bachelor of Science in Information Systems from the University of Mindanao Digos College, I am eager to bring my technical expertise, creativity, and problem-solving skills to your development team.

During my studies and through personal projects, I gained hands-on experience in HTML, CSS, JavaScript, and Bootstrap, developing responsive and user-friendly web applications. My projects include Alerto360, a real-time emergency response system, and a Payroll Management System that streamlined employee records. These experiences strengthened my ability to design intuitive user interfaces and ensure cross-platform compatibility.

In addition, I hold certifications in Responsive Web Design (FreeCodeCamp), CSS (TESDA), and Cybersecurity (Cisco), equipping me not only with front-end skills but also an awareness of system security and performance optimization.

I am confident that my passion for clean design, efficiency, and accessibility, combined with my willingness to learn, will allow me to contribute effectively as a Front-End Developer. I would be glad to discuss how I can add value to your team. You may contact me at 09461021104 or via email at roelmorato@gmail.com for further information or to schedule an interview.

Thank you for your time and consideration. I look forward to the opportunity to work with you.

Sincerely yours,

Roel C. Morato
Applicant

Hiring Manager
Mediaone Software Solutions
NHA Bangkal Ground Floor Cordillera corner Waling Waling Davao 8000 Philippines

Sir/Madam

I am excited to apply for the **Front-End Developer** position at Salao Accounting Network. As a recent graduate with a **Bachelor of Science in Information Systems** from the University of Mindanao Digos College, I bring both technical expertise and a strong passion for creating responsive, user-friendly web applications.

Through academic projects such as **Alerto360**, a real-time emergency response system, and a **Payroll Management System**, I gained hands-on experience in **HTML, CSS, JavaScript, Bootstrap, PHP, and MySQL**. These projects strengthened my ability to design intuitive interfaces and ensure cross-platform compatibility. Additionally, my certifications in **Responsive Web Design (FreeCodeCamp), CSS (TESDA), and Cybersecurity (Cisco)** have equipped me with both front-end development skills and an awareness of system security and performance optimization.

I am particularly drawn to SAN's reputation for innovation and efficiency. I am confident that my dedication to clean design, accessibility, and continuous learning will allow me to contribute meaningfully to your development team.

I would welcome the opportunity to discuss how my skills can support SAN's goals. Please feel free to contact me at **0946-102-1104** or via email at **roelmorato@gmail.com** to arrange an interview.

Thank you for your time and consideration. I look forward to the possibility of contributing to your team.

Sincerely,
Roel C. Morato

ROEL MORATO

Career Objective

A recent graduate with a Bachelor of Science in Information Technology, seeking an entry-level Front-End Developer role in a reputable organization. Aiming to apply academic knowledge and practical experience gained through internship opportunities, while contributing to the organization's success and pursuing continuous professional development.

❖ Project Experience

- **Alerto360** – Designed and developed a responsive UI for a real-time emergency response system.
- **Payroll Management System** – Built user-friendly web forms and dashboards for payroll automation.
- **Smart Scan** – Contributed to mobile UI design for an Android-based inventory processing system.

🎓 Education

- **Bachelor of Science in Information Systems**
University of Mindanao Digos College, Roxas Ext., Digos City, Davao Del Sur
2022 – 2026
 - **Senior High School – ICT Strand**
Mary Mediatrix of All Graces Academy, Inc., Digos City, Davao del Sur
2019 – 2021
-

💻 Technical Skills

- **Front-End Development:** HTML5, CSS3, JavaScript, Bootstrap, Responsive Web Design
- **UI/UX:** Layout design, accessibility, performance optimization
- **Back-End (basic):** PHP, MySQL
- **Mobile Development:** Android Studio, Kotlin, Java
- **Other:** Cybersecurity awareness, troubleshooting, adaptability
